10-29-19 | Spokane

10-30-19 | Seattle

In today's world, being efficient and effective with resources is the name of the game to keep your customers and tenants returning year after year. Join us for in-depth

training and education related to the unique requirements of your commercial and industrial parking lot installations.

From construction to maintenance, materials to proper pavement design, learn what is required to keep your facility in tip-top shape.

Who Should Attend:

This course is tailored for those who own, manage, specify, consult, construct, or design commercial and industrial parking lots. If you have responsibilities related to these areas, this training is for you.

Commercial and Industrial Parking Lot Training

Spokane

Seattle

Instructors

Mike Huner, P.E.

Asphalt Technology Consultant

Mike has over 20 years' experience in many aspects of the asphalt industry, ranging from Research & Testing to Technical Services. He holds both a bachelor's and a master's degree in Civil Engineering from Auburn University and is a registered professional engineer in the states of Alabama and Tennessee.

David Gent, P.E., Executive & Technical Director
Washington Asphalt Pavement Association (WAPA)

Dave worked throughout Washington estimating and managing heavy civil / paving projects for 32 + years at two regional construction companies. Dave led teams in bidding and building many dozens of commercial paving projects, from residential driveways, to superstore parking lots, to high-performance industrial and intermodal yards. Dave holds a bachelor's degree in Civil Engineering (University of Washington) and an MBA (City University of Seattle). Dave is a registered P.E. in Washington state.

Area Instructors/Professionals

In addition, we often invite national or regional experts to provide perspective on different facets of commercial and industrial parking lot construction.
