A Message from WAPA's 2019 President

Welcome to the 65th Annual Washington Asphalt Pavement Association Awards Banquet. Thank you for coming and I hope you enjoy the evening. It has been a privilege and an honor to serve as the President of WAPA this past year. I would like to acknowledge the WAPA member companies for their strong support of this organization.

I became involved with WAPA in 2011 and from the first meeting it was obvious that all of the Association members were dedicated to improving the quality and sustainability of asphalt pavements in every community in our state. We could not be as impactful without the continuing support of each and every WAPA member.

As an Association we are dedicated to working with owners to improve asphalt pavements. WAPA continues to work with WSDOT to modernize and update the specifications through the efforts of the Improving HMA Committee. For example, this year WAPA members worked closely with WSDOT to allow for the use of oscillatory rollers for bridge deck paving. This single change will improve the quality of our bridge deck pavements by allowing contractors to consistently achieve optimum compaction. One of our member companies also had a very positive project experience using stone mastic asphalt (SMA) on I-90, the first time WSDOT has used this technology in over a decade. And this year I personally had the opportunity to help with the WSDOT/WAPA Joint Training Conferences. Events like this are vital to the industry and to all public works agencies as we continue to work together to place great asphalt pavements throughout the state.

In closing, I would like to thank our pavement award partners, APWA-WA, WSACE and WSDOT, for their support this year and every year in recognizing high quality paving projects. We are, jointly, doing very important work.

Thank you for a great year. I wish you all a fabulous 2020!

John Ross

2019 WAPA President

2019 Officers and Executive Committee

John Ross- <i>Cadman, Inc.</i>	President
Dan Glover- <i>Tucci & Sons.</i>	Vice President
John Madden- <i>Inland Asphalt</i>	Secretary/Treasurer
